- Extra tags may be kept for future use
- Nonconforming reports will identify animals that cannot be marketed as source and age verified cattle through CalfAID™

Removal or Loss of CalfAID™ Electronic Identification Tag

The EID animal numbering system can only be effective if the ear tag device bearing the animal's identification number remains affixed to the animal throughout the animal's lifetime, from birth to slaughter.

If an animal's tag is lost or if it is necessary to replace the EID with a new number, it is important to correlate the new official number with the previous number of the animal and report any changes to the CalfAID™ office.
